

Trampolining provides children with a strong foundation in movement and physical preparation required in all sports and everyday life.

High Flyers recreational program for 5-16 year olds teaches children basic skills using all trampoline apparatus. Skills are taught progressively through circuits and other activities, and assist in improving strength, flexibility, balance and co-ordination. All in a positive, fun, safe environment! All lessons start with stretch/warm-up on the floor and end with strength on the floor..

There are six Olympic trampolines with overhead safety rig with full safety ends and an international double mini with landing area. The pit is also available for practice.

The class sizes are 5 athletes to one trampoline with one coach. There are up to 4 coaches during a session.

#### Assessments and Award Certificates

The development of each athlete is recognised through an award system. Athletes work at a level appropriate to their own ability.

In-class assessments take place and when competency is achieved athletes are awarded with a certificate to recognise their achievement, before progressing to the next level the following. All athletes progress through the levels at their own pace.

Once trampolinists have progressed through some awards they may be invited to move into the *Competition Program* where they have the opportunity to compete if they wish. These are generally held from 4-6pm weekdays on weekdays and on Saturdays. Some children may be invited to join this program earlier.

Lower levels competitors can stay in the recreational sessions to train.
